## OBJECTIVE

---

Motivated Software Engineer pursuing a B.Tech in Computer Science with strong skills in full-stack development (Java, React, Node.js). Eager to apply technical expertise, leadership experience, and creativity to real-world software challenges while contributing to innovative, scalable solutions that drive user and business value.

## EDUCATION

---

<b>Bachelor of Technology</b> , Galgotias University	2022 - 2026
<b>Senior Secondary School</b> , Zakir Husain Model Senior Secondary School	2022

## SKILLS

---

<b>Technical skills</b>	Java, Html, CSS, JavaScript, React, Node.js
<b>Soft Skills</b>	Problem Solving, Communication, Collaboration, Time Management, Adaptability
<b>Developer Tools</b>	Git, GitHub, VS Code, IntelliJ IDEA

## CERTIFICATIONS

---

- Full Stack Java - Wipro
- Java Full Stack Developer - Edu Skills
- Core Java - Internshala

## PROJECTS

---

### Live Chat Application (React, Node.js, Socket.io)

- Developed a real-time chat app with instant messaging, multiple chat rooms, and user authentication.
- Optimized performance with a scalable backend architecture and responsive UI.

### CityLoad Express – Logistics Simulation (HTML, CSS, JavaScript)

- Built a responsive logistics booking web app featuring real-time fare calculation, vehicle selection, and a fixed-header layout for a professional UI experience.
- Added an auto-updating booking history sidebar showing the last 10 deliveries, with clean modular architecture using separate HTML, CSS, and JavaScript files.

### Online Bus Booking System (Java, Spring Boot, MySQL)

- Developed a web application to enable bus search, seat availability checks, and ticket booking.
- Designed a responsive UI and streamlined the booking flow to improve usability.

## EXTRA-CURRICULAR ACTIVITIES

---

- Attended and volunteered at tech workshops, university coding clubs, and seminars, gaining exposure to industry trends and collaborative development.
- Played volleyball at school level, developing teamwork, discipline, and leadership skills through active participation in sports events.

## LEADERSHIP

---

- Team Lead, College Projects: Led a team of peers in building web applications, coordinating tasks, code reviews, and presentations
